

Installation Guide

The purpose of this document is to explain how to connect / disconnect Federal Firearm Licence (FFL) API for BigCommerce.

FFL API BigCommerce App provides a list of FFL dealers that are nearby based on the given zip codes.

FFL Dealers are individuals or companies that are licensed by the United States to engage in a business pertaining to the manufacture or importation of firearms and ammunition, or the interstate and intrastate sale of firearms through the issuance of FFL.

Before you start

API requests require a token to retrieve data. API tokens are issued on a per-site basis. You may register for a free trial which will automatically expire in 10 days.

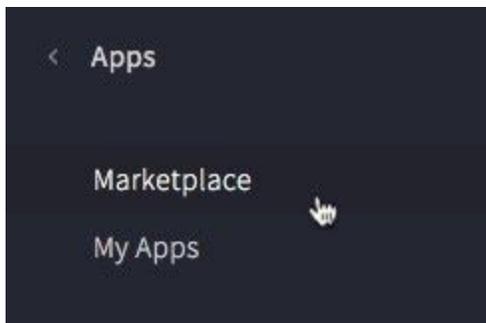

Prerequisites

- BigCommerce Stencil theme.
<https://devcenter-production.docs.stoplight.io/stencil-docs/getting-started/about-stencil>
- Bigcommerce's Optimized One Page Checkout.
<https://support.bigcommerce.com/s/article/Optimized-Single-Page-Checkout>
- BigCommerce's GraphQL Storefront API must be enabled.
<https://developer.bigcommerce.com/api-docs/storefront/graphql/graphql-storefront-api-overview>
- Google Maps API Key
<https://developers.google.com/maps/documentation/javascript/get-api-key>

Install FFL API BigCommerce App

To install the FFL API on the BigCommerce site

1. [Log in](#) to the BigCommerce store
2. Navigate to Apps - Marketplace

3. Search on FFL API, and select the FFL API logo

4. Agree to the BigCommerce terms and conditions and click Confirm.

5. Enter your Google Maps key then select **Save Keys**.

Google Maps API Key

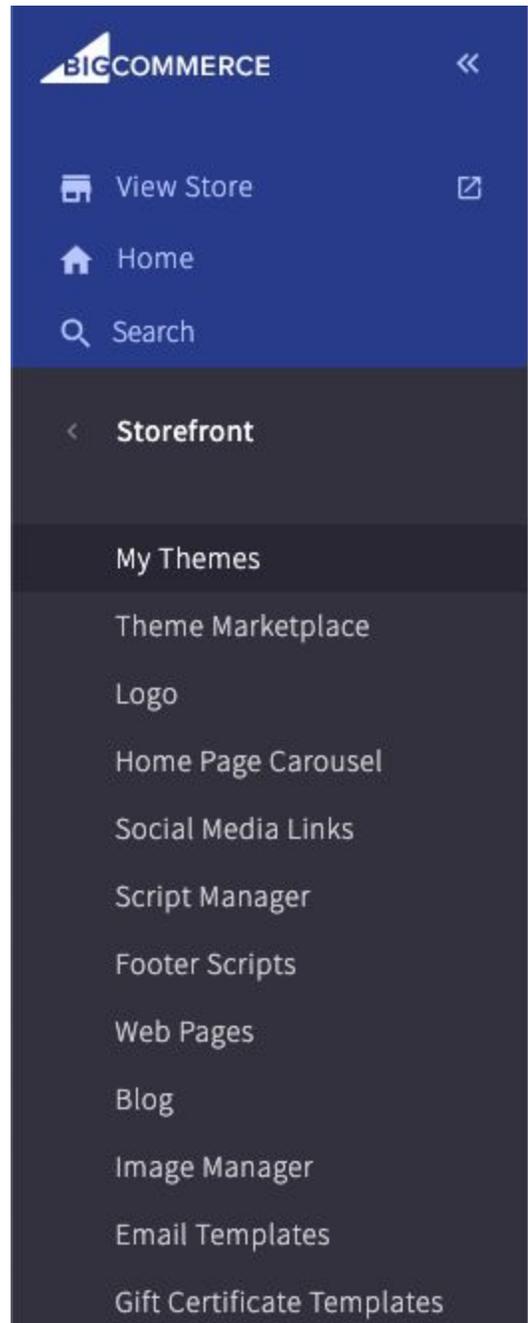

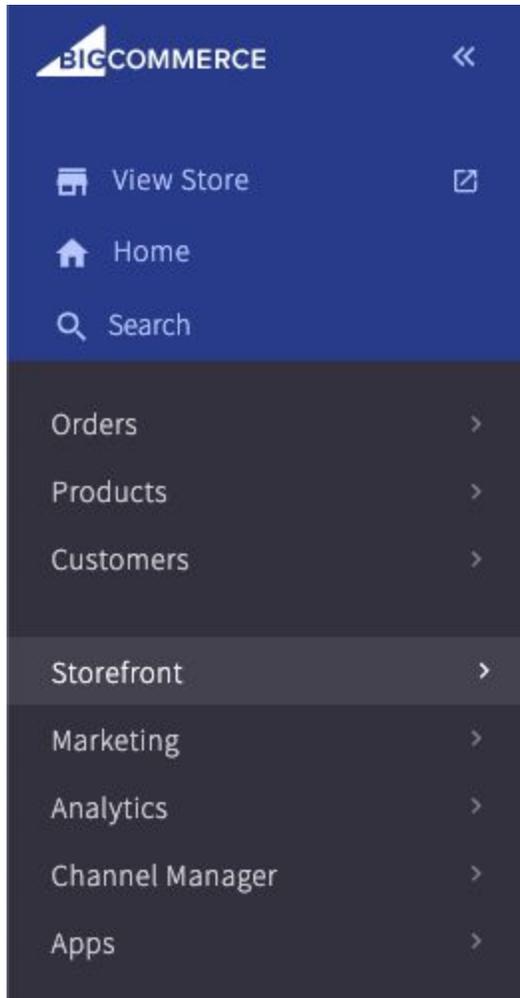

If you have not Google Maps API key yet, please click [here](#) and get your key right now!

Save Keys

6. Copy the code block when saved the keys.

```
<div id="checkout-app"  
  
  data-google-api="Your saved Google Key"  
  data-ffl-api="Your saved FFL API Key"  
  data-settings-api="{{settings.storefront_api.token}}">  
  
</div>
```

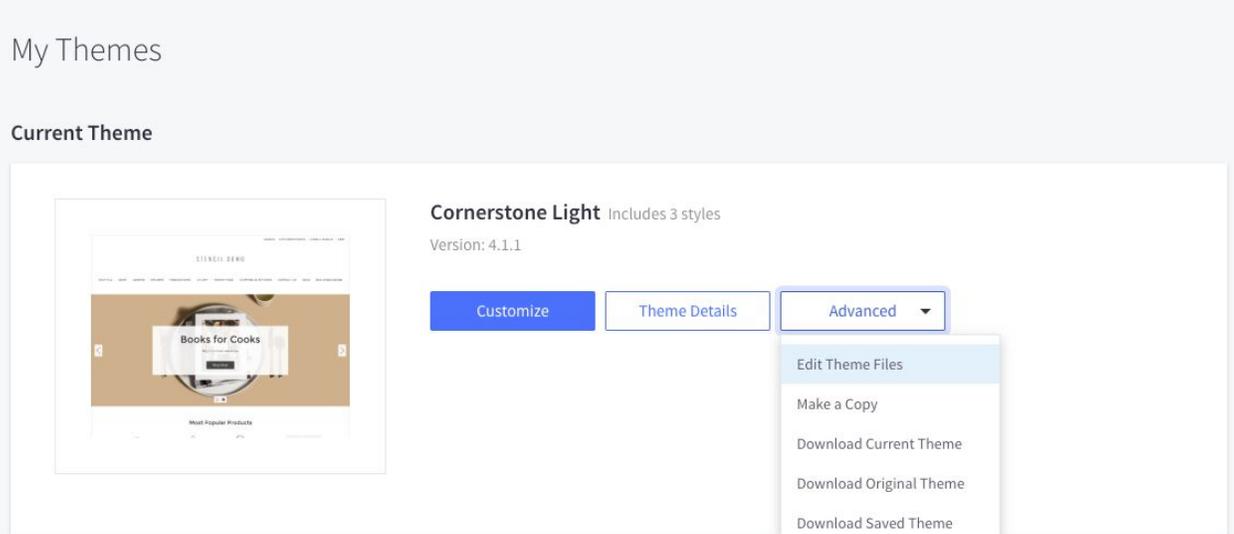

7. Navigate to Storefront - My Themes

8. Select “Edit Theme Files” under Advanced dropdown under My Themes - Current Theme

My Themes

Current Theme

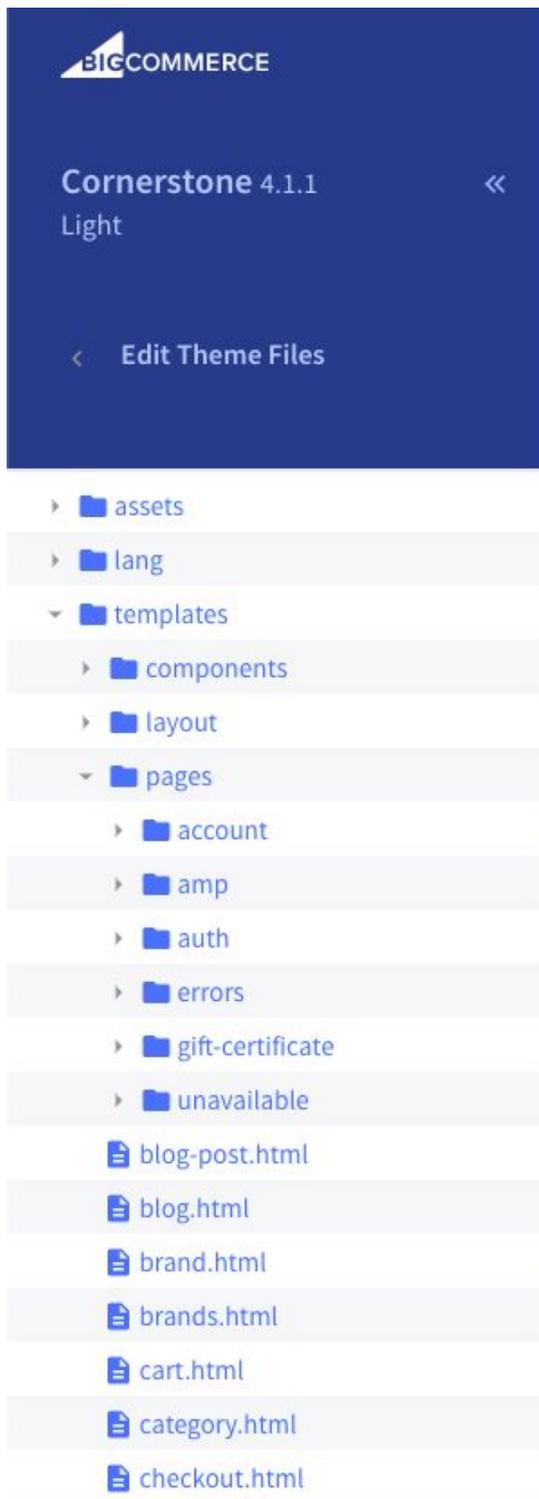

Cornerstone Light Includes 3 styles
Version: 4.1.1

Customize Theme Details Advanced

- Edit Theme Files
- Make a Copy
- Download Current Theme
- Download Original Theme
- Download Saved Theme

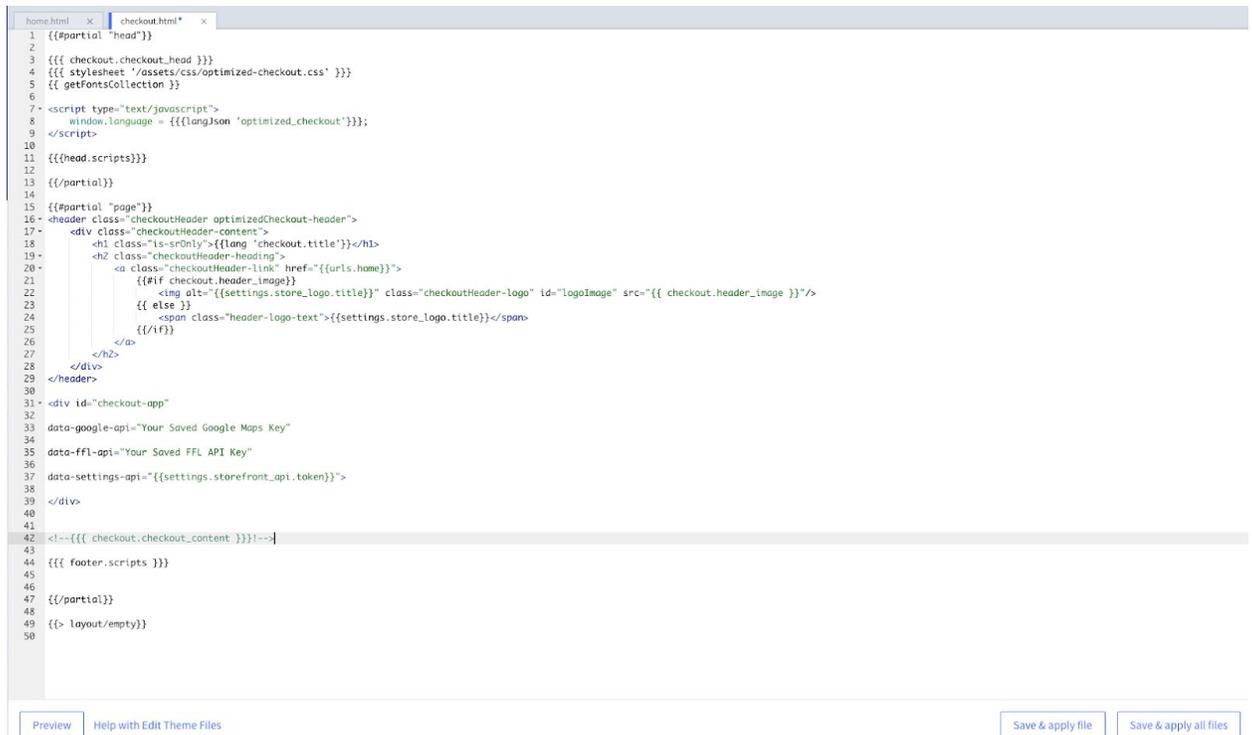

9. Locate the checkout.html file and open it

10. Replace the `{{ checkout.checkout_content }}` line with

`<!--{{ checkout.checkout_content }}!-->`

11. Place the code block when saving the keys at Step 6 above the commented string

```
1  {{partial "head"}}
2
3  {{{ checkout.checkout_head }}}
4  {{{ stylesheet '/assets/css/optimized-checkout.css' }}}
5  {{{ getFontsCollection }}}
6
7  <script type="text/javascript">
8    window.language = {{{langJson 'optimized_checkout'}}};
9  </script>
10
11  {{{head_scripts}}}
12
13  {{/partial}}
14
15  {{partial "page"}}
16  <header class="checkoutHeader optimizedCheckout-header">
17  <div class="checkoutHeader-content">
18    <h1 class="is-srOnly">{{{lang 'checkout.title'}}}</h1>
19    <h2 class="checkoutHeader-heading">
20      <a class="checkoutHeader-link" href="{{url.home}}">
21        {{{checkout.header_image}}}
22        
23      {{ else }}
24        <span class="header-Logo-text">{{{settings.store_logo.title}}}</span>
25      {{/if}}
26    </h2>
27  </div>
28 </header>
29
30 <div id="checkout-app"
31   data-google-api="Your Saved Google Maps Key"
32   data-ffl-api="Your Saved FFL API Key"
33   data-settings-api="{{settings.storefront_api.token}}">
34
35 </div>
36
37 <!--{{ checkout.checkout_content }}!-->
38
39
40
41
42
43
44  {{{ footer_scripts }}}
45
46  {{/partial}}
47
48  {{- layout/empty}}
49
50
```
